Legal Field Letter

No. 41

SUBJECT:- Glossary of Apparel and Knitwear Products

There has been issued under date of December, 1940, a revised Glossary of Apparel and Knitwear Products indicating the minimum hourly rate applicable to the production of designated articles and where required, a description of the article. Allocation of specific articles to the several divisions of the Apparel Industry and the description of articles specifically referred to in the definitions of these divisions represent the opinion of the Wage and Hour Division which will guide it in the enforcement of the wage orders until found by the Division to be erroneous or changed by authoritative decision of the courts.

Substantial changes have been made in the revised glossary, and the earlier edition dated August 12, 1940, should no longer be consulted. The revised glossary should be used instead of release G-43 as a source of information on the interpretation of the wage orders.

Issued 1/17/41
