Re: Solicitation
HAWES-72-1-5777

This is in further reply to your letter and report of November 13, 1972 requesting final determination as to whether ~~_____~~ is eligible for contract award for battery boxes, Type CT-2301/114, as a manufacturer or regular dealer within the meaning of the Walsh-Healey Public Contracts Act and the regulations issued thereunder.

We have carefully reviewed the evidence contained in your report, including information submitted by the firm on its own behalf, and can find no reason to question the initial determination by your agency that the firm is not eligible as either a manufacturer or regular dealer within the meaning of the Walsh-Healey Public Contracts Act in that it does not meet the requisite criteria contained in ASFR 12-603.

Sincerely,

Sam P. Robertson
Acting Administrator
Wage and Hour Division
