U. S. DEFARTMENT OF LABOR WAGE AND HOUR DIVISION Washington

KNITTED AND MEN'S WOVEN UNDERWEAR AND COMMERCIAL KNITTING INDUSTRY
COMMITTEE APPOINTED

Appointment of an industry committee for the Knitted and Men's Woven Underwear and Commercial Knitting Industry to meet in Conference Room A, Department of Labor Building at 10 A.M., June 16, 1941, was announced today by General Philip B. Fleming, Administrator of the Wage and Hour Division, U. S. Department of Labor.

Under the Fair Labor Standards Act the committee is instructed to investigate economic and competitive conditions in this industry and to recommend the highest minimum wage up to 40 cents an hour which will not substantially curtail employment.

The manufacture of men's and boys' woven underwear is now carried on under a 32-1/2 cent minimum wage which went into effect July 15, 1940 as a section of the apparel wage order. As a direct result of this minimum, approximately 6,000 of the 9,000 persons employed in the manufacture of men's and boys' woven underwear received pay increases. The knitted underwear and commercial knitting industry has been operating under a 33-1/2 cent minimum wage which has been effective since May 6, 1940. This rate directly increased the wages of about 17,000 workers in the industry which employs approximately 62,000
